Title: Information performance

Abstract:

In this talk, I will take a broad view of data visualization (and nearby ideas like “model,” “algorithm,” and “code”). I will present a selection of work from my artistic collaborations over the last few years — from a permanent display in the lobby of the New York Times building and a new work for the 9/11 Memorial Museum in New York City; to a performance designed as part of the New York Public Library’s centennial celebration.
